#### FISCAL YEAR-END REVENUE PICTURE:

The consensus revenue estimating group expects fiscal year 2007 actual revenue collections will exceed target revenues, which were forecast in February, by \$160 to \$260 million with the majority coming from individual and corporate income taxes. This amount may change depending on the number and size of refunds not yet processed. The previous estimate of revenue above target was revised upward based on large April and May collections.

#### NOTES:

1 Top 12 revenue sources for the non-restricted General, Education, and Transportation Funds. This report provides a revenue outlook for the first 11 months of the fiscal year, and is not an exhaustive review of state finances.

These sources constitute at least 95 percent of<u>non-restricted revenue</u> (excluding federal funds), and do<u>not</u> include special earmarked funds.

- 2 The revenue forecast is developed through consensus by economists from the Office of the Legislative Fiscal Analyst, the Tax Commission, and the Governor's Office. The target revenues were released February 12, 2007.
- 3 "Non-earmarked" state sales and use taxes were only up 3.4 percent in the first ten months of FY 2007 due to large earmarking of sales taxes for transportation. Accordingly, the Centennial Highway sales tax and transfer increased 185.9 percent in the first eleven months of FY 2007. The state sales tax on food and food ingredients decreased from 4.75 to 2.75 percent on January 1, 2007, and has been reflected in revenues since February.
- 4 Includes income & franchise, radioactive waste, and gross receipts taxes.
- 5 Motor vehicle registration fees estimated by the Economic & Statistical Unit are not part of the consensus forecast.
